

Purple Pepper Farms was founded as a vertical hydroponic and diversified produce operation located in Lake Winola near Scranton, Pa. In 2012, we started the farm to include the production of vegetables, fruit, and a greenhouse business. In 2016, we opened a deli in Scranton to feature products we were growing, as well as, additional income through winter months. In early 2017, we began to raise heritage breed pigs, along with maple syrup productions, as a commitment to continuing to strive for a diverse farm ecosystem. In 2019, we expanded our operations into permitted hemp for extraction of cannabinoids. In 2020 and 2021, our focus was to build on what we have instilled, while reaching to a large community in Northeastern PA. In 2023, we sold the deli and removed hemp production from our portfolio. We reached our goals by concentrating our focus on the core of our business; CSA memberships, roadside stands, large pumpkin and ornamental sales, and catering events. For 2024, we plan to build upon the last two years, as well as focus our original interests on new and specialty items not often found or grown, on other local farms. Previously known as a CSA, we are proud to be offering shares in our Farm Membership for this season. I feel that it's important to sell directly to our customers as much as possible and to insure proper handling of the best quality product for your family to enjoy. Each year, we promise to learn and challenge ourselves to make our customer experience more enjoyable. We thank our members for their continued support and look forward to a

successful year!

-Trevor Brown, Owner

Why Should You Become a Member in Purple Pepper Farms?

Fruits and Vegetables are picked daily!

- Every growing season will have its challenges. Mother Nature throws us curveballs and we just have to do our very best to combat them. The one thing we can promise are high quality fruit & vegetables picked at their peak for you and your family to enjoy.

Better Flavor!

- Experience the rich flavors of your freshly harvested food and knowing it was harvested less than 24 hours before it reached your door. Taste it now! Perfect juicy red tomatoes, crunchy bell peppers and super sweet melons.

Safer Food

- Your produce comes directly from our farm and other local trusted farms. Partnerships that we have formed over the years. That alone takes the risk of your food getting damaged or spoiled due to long-distance shipping. We also take great pride in picking, storing and transporting our produce in a clean, sanitary environment.

Save Time and Money

- By purchasing one of our memberships, you will save time and money. Your money goes directly to our family farm instead of paying distributors and trucking companies, which means it stays in your local economy.
- Your pick up is at one of our participating farm stands. Bring your bag and choose anything we have available for sale. As an example- Don't like beets? No problem, take more sweet corn or something else. Love beets? Take what you enjoy!
- Our CSA weekly average cost is \$35.00 or about \$2/lb. A tremendous value for a relationship with your food and farmer.
- No set Pick-Up Date or Time! Your schedule is already busy enough. Really, we understand too! Let's make it easy on both of us! **Pick-up anytime after 11am, Wednesday-Saturday.** If those days don't work, just let us know. We can always make something work!

We like our customer's suggestions! If there's a fruit or vegetable you'd like for us to grow or locally source, simply add your suggestion with your paid contract. If it grows in our zone, we will be happy to consider it.

Is Texting ok? (Please Circle) YES NO
Email: _____

I, _____ commit to membership in the Purple Pepper Farms' seasonal membership for the 2024 season. As a member, I commit myself to supporting the farm by making my payment and I will commit to pick-up my weekly delivery at the Purple Pepper Farms' designated location. I understand that if I do not pick up my share it will be donated to a designated Harvesters Contact. I do not expect to have my share saved. As a member of the farm, I will receive a weekly share for the designated amount of weeks. The share will vary in size and weight depending on the time of the season. Harvest in the beginning may be smaller.

I understand that the variety of produce I receive is dependent on growing conditions that vary from season to season and that the risk and benefits of the harvest are shared. I understand that I am involved in a bio-system that is dependent on weather and other environmental factors and as such there is risk of crop failure. Should this happen, I understand that there will be no refunds and/or the share size could be greatly impacted.

*****Attention- We can accept Credit/Debit Card Purchases for an additional 3% Fee
Cash, Check, Venmo, & Paypal Also Accepted.**
